### DETAILED ACTION

1. Claims 1-43 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Pursuant to Board of Patent Appeals and Interferences Decision rendered on 05/25/06, none of the references either singularly or in combination teach determining whether a user is busy in order to alert the user to a document based on a predetermined criteria.

Forscher teaches receiving a document and alerting a user based on a predetermined criteria but does not teach the use of a trained document classifier or determining whether a user is busy and alerting the user to the document based on a predetermined criteria.

Cohen teaches using a trained document classifier for purposes of prioritizing documents but does not disclose determining whether a user is busy and alerting the user to the document based on a predetermined criteria.

Lewis teaches taking into account the expected loss of non-review and alerts the user based on the expected loss but does not teach determining whether the user is busy and alerting the user to the document based on a predetermined criteria.

Therefore claims 1-43 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
